

'Crazy Tube Too' Marblehead/10 rater for sale

The late Paul Midgley's 'Crazy Tube Too' is fully equipped, ready to sail as both a Marblehead and 10 rater, including:

- A , B, C1, C2, C3 and 10 rater rigs all with Stollery Swing Rigs and Paul's own specially made sails as shown above. The A,B and 10 rater rigs have LAMs (Leech Adjustment Mechanisms) which allow tensions in both jib and main leeches to be adjusted in perfect relationship, without a separate servo, by adjusting the winch 'trim' when going to windward.
- Skysport 40mHz FM r/c gear with 40.775 crystals. The TX also has a TRANSMITT protective cover for use in adverse weather conditions. The radio gear within the boat is enclosed in a 'Yot Boot', which is removable for maintenance.
- The Paul Tickner carbon fibre hull has beautifully finished painted surface and is fitted with a relatively short keel giving a draught of approximately 555mm and able to sail in most model yacht lakes.

Sister ship to recent National Champion 'Crazy Tube's' this boat is a bargain at **£600 o.n.o.** The 10 rater rig is available separately at **£100.**
